Connect with the  
Bay Area Air District:

November 30, 2018

Ms. Elizabeth Adams  
Acting Director, Air Division  
**United States Environmental Protection Agency Region 9**  
75 Hawthorne Street  
San Francisco, CA 94105

Dear Ms. Adams:

This is to advise you that the Bay Area Air Quality Management District is issuing the renewal Major Facility Review permit for the following facility.

Facility	Facility Name	Application	Permit Engineer	City	County
A0011	Shell Martinez Refinery, Shell Oil Products US	27866	A. Werth	Martinez	Contra Costa

The 30-day public comment period for the proposed renewal permit ended on September 5, 2018 and the 45-day EPA review period ended on October 23, 2018. The District did not receive any comments on the proposed permit from ARB or the public. The District did receive comments from the facility and EPA.

The final permit incorporates the following minor changes:

- 1) Per comments from EPA, the subsections of 40 CFR 63.658 for fence-line monitoring requirements were added to Table IV – WWW Facility-wide Requirements and Table VII - PPP Facility-wide Requirements. In addition, applicable fence-line monitoring requirements in Regulation 12, Rule 15, sections 207, 403, 404, 406, 407, and 501 were added to Table IV - WWW.
- 2) Per comments from Shell, four storage tanks that were incorrectly identified as being removed from the permit were added back into the permit. Also, changes were made to Table IV – FFF for S4161 HP3 Steam Methane Reformer to address the fact that 40 CFR 60 Subpart J (60.105(a)(4)(iv)(C)) supersedes the alternative monitoring plan (AMP) for monitoring H2S. The AMP permit condition and permit shield were removed for the same reason.
- 3) The effective date and sub-section titles of Regulation 6, Rule 1 were updated throughout the permit to reflect the August 1, 2018 amendments to this regulation.

The District has decided to issue the permit. The final permit can be viewed on the BAAQMD website at <http://www.baaqmd.gov/permits/major-facility-review-title-v/title-v-permits>. We will also send the final permit to you via the Electronic Permit Submittal System. If you have any questions regarding this permit, please call Dennis Jang, Senior Air Quality Engineer, at (415) 749-4707.

Sincerely yours,

Signed by Damian Breen for Jack P. Broadbent  
Jack P. Broadbent
